**2014 TECH FAIR**  
**"SECURE YOUR FUTURE, GROW WITH US!"**

On January 16, 2014 from 10:00 a.m. to 3:00 p.m., TCiCT presents the Third Annual Tech Fair. This year's theme is "Secure Your Future, Grow With Us!" All County of Tulare employees, surrounding city and county employees, local educational institutions, local organizations, and local businesses will be invited to attend!

Contact us for more information!

Event Location:  
Visalia Convention Center  
303 E. Acequia Ave  
Visalia, CA 93291

## Tech Fair 2014

Technology continues to be more important to our society as we increase our reliance upon computers, mobile devices, the Internet, and other technologies to aid in our everyday lives! The TCiCT Tech Fair provides opportunities for attendees to learn new skills, gain exposure to new technologies, and ask questions directly to technology vendors.

The TCiCT Staff is dedicated to securing the future for Tulare County. We do this by analyzing the needs of Tulare County Departments in order to design, develop, implement, and evaluate technology solutions that will benefit our customers and ultimately, the citizens of Tulare County. The Third Annual TCiCT Tech Fair is just one of the ways that we gauge our customer's needs.

More than 4,000 people are invited to attend this event including County of Tulare employees, surrounding city and county employees, local educational institutions, local organizations, and local businesses. Our aim is to provide these opportunities for training and exposure, as well as gain input from the customers we serve! We have provided these opportunities during previous Tech Fairs and have received great feedback from those that have attended!

So please come join us for the Third Annual TCiCT Tech Fair. Get exposure, get training, and "Secure Your Future, Grow With Us!"

*"I enjoyed being able to meet with the vendors and expand my knowledge of new technologies."*

*"The Tech Fair was informative, there were lots of vendors and information available to us."*

*"I enjoyed the Tech Fair and learned some things from the training and from vendors."*

## Security is the Theme....

This year we are focusing on Security! In fact, our tagline is "Secure Your Future, Grow With Us!"
